

# Health care built around your patient

## We specialize in choice.

When a patient joins the OptumCare® Network of Nevada, they're part of a robust, integrated care system. Through our network, patients can choose from hundreds of primary and specialty care providers and a broad array of hospitals.

## The insurance plan plays an important role.

To see a doctor who's part of the OptumCare Network, patients should first consult their health plan. In Nevada, five Medicare Advantage plans give access to the OptumCare Network:

- UnitedHealthcare Medicare Focus (HMO)
- UnitedHealthcare AARP® MedicareComplete® (HMO)
- UnitedHealthcare AARP® MedicareComplete® Premier
- Anthem MediBlue Coordination Plus (HMO)
- Anthem MediBlue Plus (HMO)

Once patients have selected their plan and network, they're ready to choose a primary care provider who's part of OptumCare.

Contact the OptumCare Network of Nevada Service Center at **1-877-370-2845** with questions.

## Senior Dimensions is changing its name to **UnitedHealthcare Medicare Focus (HMO)** in 2019.

### Here's what this means to patients:

- No significant changes in benefits
- No gap in care, and patients can keep seeing the health care team they know and trust
- There's no action necessary—patients will receive a new ID card for the 2019 plan year automatically
- The Annual Notice of Change will provide full details and updates

### Here's what patients can look forward to:

- Access to 14 hospitals valley-wide
- The OptumCare® Network of Nevada offers access to over 1,600 local health care providers
- A simplified patient experience through a broad electronic medical records system

# Here's how it all comes together.

*The health plan, network and physician all work in conjunction.*

## Health insurance plan

The health plan pays the cost of medical care. This can include:

- Medical benefit
- Behavioral health
- Prescription drug coverage

Patients choose a medical network and doctor through their health plan.

## Medical network

Patients choose their medical network through their health plan. The medical network gives them access to their doctor, hospitals and other health care providers. This can include:

- Hospitalization
- Urgent care
- Specialist referrals
- Case management
- Lab services
- X-ray services

## Doctor and health care team

Patients select their primary care doctor through their medical network. Their doctor works with the medical network and health plan to keep patients feeling their best.

It's our privilege to provide care for your patients, and we look forward to continuing to do so.

With this name change, that commitment remains strong and focused.
